Master Scheduler/Planner

Working at Mettler Toledo means you are impacting the world in important ways. Our precision measuring devices span the world's laboratories, production facilities, and retail stores. We manufacture, sell, and service instruments that detect, measure, and weigh - from the infinitely small to the largest of vehicles or airplanes.

METTLER-TOLEDO Process Analytics (<http://www.mt.com/pro>) is a leading supplier to end-users and system integrators for liquid analytical measurement solutions to control production processes. We provide an entrepreneurial environment within the context of a dynamic global organization. We strongly believe in work-life balance.

POSITION DESCRIPTION:

Reporting to the Manager of Material Management, this position is responsible for establishing and monitoring the forecast of products, improve replenishment strategies and master data as well as implement changes to a product (ECO) for the facility to fulfill customer requirements on time.

We Have:

- Global market strength and worldwide leadership
- A brand name that is identified worldwide with precision, quality, and innovation
- Thousands of patents, design and innovation awards
- High earning potential with a consistent track record of success and promotional growth opportunities
- State-of-the-art instrumentation and solutions

Do You Have?

- A degree Business Management, Operations Management or related field;
- An APICS Certification and Five years (5) experience in manufacturing, production planning, and material control function (or combination of experience and education)
- Experience in SAP with working knowledge of Excel (Vlookup, basic formulas, basic navigation)

Can You?

- Lead projects/implement tasks in material management area, define method to forecast items and implement regular alignment meetings to compare historic consumption
- Lead production planning and sales forecast meetings, verify discrepancies and implement agreed changes on the master schedule.
- Define replenishment strategies for Make and Buy Parts and maintaining material master data to support targeted goals for on time delivery performance, inventory turnover and other key performance indicators (KPI) for newly introduced parts
- Validating and implementing ECOs (engineering change orders) from planning perspective

We Give You:

- Medical, dental and vision care coverage and a 401(k) savings plan with company matching – all *starting on date of hire*
- Wellness programs, tuition reimbursement, development opportunities

METTLER TOLEDO

- And, all the usual such as paid time off, flexible spending, short-and long-term disability, basic life insurance, business travel insurance, Employee Assistance Program, and domestic partner benefits
